IMMENSE CEMENT PLANT TO BE FORMALLY OPENED HERE SUNDAY

New Local Factory to be Thrown Open For Public Inspection. Manufacturing Process Explained

Plans are now complete for the formal opening of the big cement plant here, which is to take place tomorow. It is the desire of the cement company that the residents of this district see the new plant and get an understanding of the immensity of this new industry in our city. The plant was completed this week and was accepted by the company officials from the contracting firm which has been in charge of the construction work for the past five months. The final acceptance of the plant was made Tuesday and the first trial of the machinery was made on the same day. No difficulties were encountered, and the plant was accepted without any trouble.

On Sunday between 1 0a. m. and 3 p. m. the company will hold open house. The plant will be in full operation and guides will be on hand to show visitors through the new factory and explain the process of making cement from shells and ocean mud. There will also be launches provided to take visitors to the mud dredgers, which are employed to dig the mud from the bottom of the bay and load it on scows to be hauled to the wharf of the plant. A free lunch will be served to all visitors at 1:30.

On Monday a banquet planned by the Redwood City Chamber of Commerce will be held in the Sequoia hotel at which all officers of the Pacific Portland Cement Co. will be present. One of the principal speakers at this meeting will be George A. Merrill of this city, through whose experimentation the possibities of making cement from the shells here was first proved and who in a large meaure was responsible for the plant locating here. Merrill and others were the holders of the land upon which the plant is now located.

Other speakers who will make addresses at the banquet in the evening will include C. M. Doxsee of the George H. Rice Abstract Company, Mayor Henry Beeger, Supervisor John MacBain, President C. H. Holt of the Redwood City Chamber of Commerce, for the local organizations.

The principal speaker of the evening for the cement company will be R. B. Henderson, president of the Pacific Portland Cement Company. Other officials who will be present will be H. V. Towle and J. H. Colton, secretary and vice-president, respectively of the cement company, W. C. Stevens, superintendent of construction, H. M. Power, superintendent of the plant and W. C. Stevenson, chief engineer.

The cement plant here is one of the largest in the world, and is the only plant on this coast engaged in the manufacture of cement from shells. As at present constructed the capacity of the plant is 10,000 sacks of cement per day. The buildings are so located, however, that they plant can be indefinately enlarged. It is the plan of the Pacific Portland Cement Company to construct other units identical with the present unit and so enlarge the plant until its capacity will be about 40,000 sacks per day. This will make the local plant one of the largest manufacturing plants on the Pacific coast.

City Briefs

Miss Sylvia Underhill will leave within a few days to resume her duties as teacher in the schools of Bakersfield. She has been spending her vacation with her mother, Mrs. S. Underhill at her home on Stambaugh street.

Mr. and Mrs. Rudolph Adams are the proud parents of a baby girl who arrived at the Adams home this week. The little girl is the second child in the family.

Among those who came to Redwood City to attend the funeral of Mrs. Sarah Wentworth last Sunday were Rev. and Mrs. L. D. Rathbon, and Mr. and Mrs. John Christ of Cloverdale. Both the Rathbons and the Christs were old-time Redwood City residents. Rev. Rathbon was formerly minister of the Congregational church here.

Tuesday evening Mrs. J. N. Winter and Miss Inez Jamieson entertained at the latter's home on Chestnut street . The evening was spent in music and cards, high scores being made by Miss Lottie Bullivant and Miss Georgia Porter, Mr. P. Yates, Mr. H. Mason and Mr. J. Collins. The non-players prize was won by Miss Grace Bullivant. Those present were: Miss Annie, Lottie and Grace Bullivant, Mrs. Winter, Mrs. Jamieson, Miss Georgia Porter, Miss Jamieson, Paul Whitney, Herbert Mason, Percy Yates, Joseph Collins, Sidney Wigmore, Faxon Gomez and Harry Jamelson.

Mrs. Rose Foster of Milwaukee, Wisconsin, is here visiting her brother, John Weller and family at their home in Wellesley Park.

Mr. and Mrs. Harry Ashford and their family are here this week visiting Mrs. Ashford's parents, Mr. and Mrs. Charles Gould. They are expecting to leave the latter part of next week and motor through Lake and Humboldt counties before returning to their home in Lemore, Kings county.

Owing to the death of his father, M. Spencer of the M. & S. Tile and Mantle Company will be in Los Angeles for several days. The store on the highway will be closed.

Miss Amelia Johnson of Belmont and stenographer in the office of County Superintendent of Schools Roy W. Cloud, and her mother, Mrs. F. Johnson, left this week for the southern part of the state on their vacation. They motored down with Miss Johnson's brother, Melvin Johnson, who has just returned from a motor trip through Oregon and Washington.

Will Barg, former county recorder of San Mateo county, was in Redwood City yesterday calling on old friends. Mr. Barg is in business making blue prints and photographic copies of records and reports business as rushing.

Walter Locker of Los Angeles is visiting at the home of his brother, C. H. Locker of this city.

Rev. C. H. Stevens of Lodi, who has been visiting here with his daughter, Mrs. Wilbur Doxsee, left for Los Angeles, Sunday afternoon to see his son, Arthur Stevens, engineer of the tanker, "Silver Shell." Young Stevens is leaving shortly for a voyage which will occupy more than two years. Before returning to this country the boat will visit the Orient and will go to England.

Mr. and Mrs. Omar Doyle are the proud parents of a baby boy born in the Mills Memorial hospital in San Mateo last Saturday. Mrs. Doyle was formerly Miss Jessie Fitzpatrick, and the little stranger is the grandson of Judge Fitzpatrick. Perhaps that accounts for the happy expression the judge has been wearing this week.

Word was received here this week announcing the birth of a son to Dr. and Mrs. Roy Woodhams, in Chicago. The Woodhams left here last week for Chicago, after a six-months' vacation with relatives in Redwood City and elsewhere. Dr. Woodhams is attending a course of lectures in the Windy City, and in April the family expects to leave for Africa, where Dr. Woodhams will resume his missionary work. The birth of the baby makes a happy family of three, the older children being girls, who were born in Africa.

In the morning service at the Methodist church, Miss Allen, a returned missionary from the Philippine Islands, will preach. Miss Allen was sent out under the auspices of the District Ladies Missionary Society.

HOSPITALITY

LIGHTING FIXTURES PLAY A MOST IMPORTANT PART IN THE MODERN DECORATIVE SCHEME. IT IS ESSENTIAL THAT THEY HARMONIZE WITH FURNITURE AND FURNISHINGS, RADIATING THEIR SOFT, FRIENDLY GLOW OVER THE ENTIRE ROOM.

OUR FIXTURES OF WROUGHT IRON IN POLYCHROME

WILL EMPHASIZE THE WARMTH OF YOUR HOSPITALITY TO YOUR GUESTS.

MANY COUNTY TEACHERS ASSIGNED IN CITY

Among the teachers assigned to positions in the school system of San Francisco, several are from this county. Miss Dolorita Falvey, who taught last year in the Lawrence school in San Mateo, will teach this year in the Washington Irving school in San Francisco. Miss Bernice Farrell and Miss Helen Jameson will both teach in the city, having been assigned to the Guadaupe and Jene Parker schools, respectively. Merton Hughs of Redwood City will teach manual training in the Portola school of San Francisco. Hughs has been doing part time teaching in San Francisco schools for some time.

Contract Let For New Building

A contract was let this week for the erection of a two-story modern office building on the property now occupied by the store of the Redwood City Garden Company, by the San Mateo County Building and Loan Association.

Plans for the building were drawn by the local architect E. I. Coffey, as announced in this paper several months ago. The building will house the offices of the Building and Loan Association on the lower floor and the upper floor will be devoted to first class business offices. The whole building will be of reinforced concrete, and will be one of the finest business buildings on this portion of the peninsula.

The contract was let to A. Payne, local builder, and work will be started on removing the old structure mithin a few days.

SAN CARLOS ITEMS

Mr. James Rich of San Mateo was a visitor in town on Monday.

A Russell, local contractor, has been awarded the contract for the erection of a bungalow for E. W. Rowan of Atherton.

Mrs. A. M. Planka has spent the past week visiting with her sister, Mrs. Sam Friedman at Fetters Springs.

Neal McGettigan and Jack Poole of Redwood City were visitors with Maury Cowgill at Maury ranch, Medford, Oregon.

Miss Marvyn Cowgill who has been spending the past five weeks in Medford, Oregon, is expected home on Sunday, just in time to enroll at Sequoia High School on Monday.

San Carlos will soon be the proud owner of a fine apartment house erected by Joe Schneider, local contractor. The painters are busy now putting the finishing touches on.

Mr. and Mrs. T. Beck are entertaining relatives at their home on Magnolia avenue.

Mr. and Mrs. F. Burton of San Francisco have purchased the McNeill home and will take possession of the same Sunday.

Mr. and Mrs. Fred Walker are spending a few days at Stockton, taking in the poultry show held there.

Past President John E. Cowgill, local postmaster here attended the state convention of postmasters held at the Van Dome hotel at San Jose on Saturday. Mr. Cowgill was appointed as one of the delegates of San Mateo county.

Mr. and Mrs. McEvoy of San Francisco were visitors at the home of Mr. and Mrs. E. Richter on Sunday.

Mr. and Mrs. Jack Tomilsen of San Francisco were visitors at the home of Mr. and Mrs. E. Wheeler on Sunday.

J. A. Merta, proprietor of the San Carlos meat market, is making extensive alterations to his shop here.

Mr. and Mrs. L. E. James were visitors at the home of Mr. and Mrs. J. Tipton of San Francisco on Friday evening.

R. C. Hurlbut, son of Mr. R. E. Hurlbut, local contractor was a visitor at the home of his father.

Mrs. Charles McNeill, a former resident here, was a visitor in town Tuesday.

DANGEROUS GUNS USED IN BIG PICTURE

"Murder must have been a pretty strenuous recreation in the 18th Century France, or else the pistols which are used in 'Scaramouche' are suffering from old age," says Rex Ingram, whose latest directorial achievement for Metro, "Scaramouche," is coming to the Sequoia theatre on next Wednesday and Thursday, August 27-28.

"It takes four men to operate the old fintlocks I have," Mr. Ingram said during the filming of the picture. "One is required to hold the pistol, another to see that the flint and steel combine to make a spray, a third to hold the victim while preparations for the shooting are being made and a fourth to stand by to help the marksman in the very possible event that the bullet fails to egress from the proper end of the firearm."

SAN MATEO JUNIOR COLLEGE

Sequoia High is well represented in the freshman class of the San Mateo Junior College which began its fall semester Monday. The test in bonehead english was held on Tuesday and all freshman were required to take it. The following Sequoia graduates have registered: Bernice Martin, Dorothy Chilcott, Christene Graves, Arnold Torres, De Alton Wentworth, Jerome McDonald, Rudolph Isarel, Merle Basham, Elbert Thomas, Noble Cloud, John Staugus, Carrol Kunze, Karl Kunze.

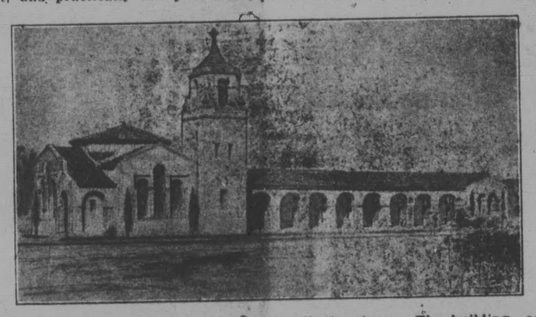
The enrollment at Junior College this year is large and besides students from San Mateo county, there are also entries from Santa Clara and San Francisco counties.

LOCAL METHODISTS LET CONTRACT FOR NEW $30,000.00 CHURCH

Building Operations Will be Started Immediately on Fine Edifice In Redwood Highlands

Final arrangements were made this week for the erection here of a New Methodist Episcopal church The building will be located on the lot at the corner of Broadway and Brewster street, and will face on Broadway This lot was purchased by the church several years ago with the intention of building upon it. Since that time the local church as well as the central conference has been working on the problem of raising sufficient funds for the construction.

Plans were drawn and accepted some time ago, and at the regular quarterly conference held here Tuesday of last week, at which Dr. White, presiding elder of this district, was present, it was decided to start immediately with the work. Since that time a contract has been let, and practically all preliminary



work completed.

According to the plans agreed upon, the building will be a triangular structure to accomodate itself to the shape of the lot upon which it is to be built, and will be a frame building, finished in stucco. The auditorium of the church will be in the portion of the building nearest the intersection of Brewster street and Broadway. It will have a capacity of 260. This capacity will be supplemented when necessary by a balcony and by opening the partition which divides the auditorium and the Sunday school room.

The Sunday school room will have a capacity of 150. There will be class rooms, social hall, kitchen and al other facilities of an up-to-date church and Sunday school building.

In commenting upon the new building Rev. Harry Owen, pastor of the church through whose tireless efforts the money has been raised for the building of the edifice said, "We are deeply grateful to the town of Redwood and to the people. We hope that the favor of the people will continue with us during our enterprise."

This is the first church to be built in the residential section of Redwood City on the west side of the highway, and is directly across the street from the new high school grounds. The corner on which the new building will stand is in a commanding position in the Highlands and will seen in all directions. The building as planned will be a prized acquisition to the highland district, and will be an ornament to the town.

The old church building, now occupied by the church, will be sold. This building, occupies the same ground upon which the Methodist church has stood since the first organization of the church here over fifty years ago. The enlargement of the city, however, and the growth of the population on the western side of the highway, have created the need of a church on that side of town. This need will be met by the new edifice.

The "Y" Station Bandit is Shot in San Mateo

A man who has since been identified as the bandit who recently held up the "Y" service station at San Carlos and as one who has previously held up the Sunshine garage in San Mateo, now lies at the point of death in a San Francisco hospital as the result of a bullet wound he received when he attempted to rob the Sunshine garage a second time, last Saturday morning.

The bandit was ransacking the cash till of the garage last Saturday morning, and had the attendant of the garage covered by a revolver. Robert Rose, proprietor of the garage was coming to work at the time, and taking in the situation at a glance opened fire on the bandit. One of the bullets took effect, but escape in a car.

the bandit managed to make his

Later a taxi driver of San Francisco notified the police department that he had taken a wounded man to a rooming house and gave the number of the place. An investigation disclosed the identity of the man as Frank H. Brown. He was found to be shot through the shoulder.

Phil Bray, attendant of the "Y" station who was held up by the bandit and J. J. Rose, father of Robert Rose, who was in the garage when the bandit held it up for the first time, both identified Brown as the man who had held them up.

Brown's condtion is considered serious by attending physicians, but he is expected to recover. He has so far refused to make any statement in regard to his case, although he confessed to the crime after he had been identified by Rose and Bray.

GRAMMAR SCHOOL WILL OCCUPY NEW BUILDING

The Redwood City schools will open Monday with an increased attendance. The sixth, seventh and eighth grades of the central school will occupy the intermediate school building for the first time. This building which formerly housed the Sequoia Union High School, has been thoroughly renovated during the vacation and has been remodeled to fit the needs of the upper grades of the grammar school. Several new teachers have been added to the faculty to care for the increasing enrollment at all of the Redwood City schoos.

Worker Killed In Landslide

Charles Wright, a laborer employed in repairing the Page mill road in the Apine creek district received injuries from which he died in a short time last Wednesday, when the upper bank of the road crushed in and burried him in the debris.

Another workman summoned help and the man was dug out of the mass of earth, rock and gravel which covered him. He was removed to the hospital at Palo Alto, but passed away without regaining consciousness. It was found that his neck was broken and his body was crushed in by the weight of the earth above him. Wright was married and leaves a family.

WOODSIDE NOTES

Mr. and Mrs. Danel C. Jackling have returned from an extended visit to Lake Tahoe, where they were guests of Dr. and Mrs. Herbert Moffitt.

Mr. and Mrs. James Eva, formerly of Redwood City, now of San Francisco, were guests for several days this week of Mr. and Mrs. Fred Mighall.

An incipient blaze in the roof of one of the houses on the Folger place created some excitement on Tuesday, but fortunately was discovered in time to prevent one of those destructive fires for which Woodside has become famous this seaon.

The Selah Chamberlains are in Paris. Dr. Bradford Leavitt was last heard from at Buda-Pesth, preparing for his return journey to California.

The children of Mrs. Frank Nash have been staying with their aunt, Mrs. Joseph L. Ross, Jr., while their mother has been in Paradise. (We refer to the California mining town.)

School open here Monday next, and while no evidence of great joy is apparent on the faces of the children, it is not believed that any will hold their objections as seriously as the case reported in the city papers.

Mr. and Mrs. Wiliam Lawson of Pasadena, who are pending the summer here, are at present in San Francisco as the guests of Dr. and Mrs. Alanson Feek.

Miss England of San Francisco is visiting Mrs. Fitd. Clamer.

Mr. and Mrs. Zimmerman and family are at Stockton, where Dr. Zimmerman has charge of the Rotn horses being exhibited at the horse show being held in connection with the county fair.

ODD FELLOWS AND REBEKAHS PLAN ORPHAN'S HOME VISIT

Plans were announced this week by J. C. Jones, chairman in charge of a committee for arranging the annual visit of the Redwood City Odd Fellows and Rebekahs to the orphan's home, maintained by the orders at Gilroy. The members of both orders will visit the home tomorrow, it was announced. Those who desire transportation or those who have extra room in their cars are requested to phone either to 439 or ot 303-J. The members will meet in front of the I. O. O. hall tomorrow morning at 9 o'clock.

PHYSICAL EDUCATION CLASS FOR WOMEN TO OPEN MONDAY

A class in physical education and swimming will be opened for women Monday night in conection with the Sequoia night school. The class will meet in the gymnasium of the new high school, and will be under the direction of Miss Irene Bradley, physical education instructor for girls of the high school. This is one of the few classes of the night school to which a fee will be charged. The fee is only to cover the actual cost of the course, however, and will probably be about $5 for the entire course. Registration will begin Monday.

WATER INTEREST SOLD

Horace Nelson was authorized this week by the State Railroad Commission to purchase from the estate of William Meisner, deceased, a one-third interest in the public utility water system supplying consumers in the town of Halfmoon Bay, which system is known as the Halfmoon Bay Water Company.

INJURED ON LA HONDA GRADE

Mrs. Walter H. Burne of Wayne, Michigan, suffered a broken arm and a number of cuts and bruises Wednesday when an automobile driven by her husband went off of the grade on the La Honda road, six miles west of here, and rolled down a twenty-five-foot grade. Burne escaped with minor cuts about the face and head. Burne and his wife drove from Michigan to Calif[illegible] and were traveling down the coast to Los Angeles.

COUNTY POLITICS VERY QUIET BEFORE THE TUESDAY ELECTION

The Supervisoral Offices Only Active Campaign. All Candidates Are Sure of Success

The primary campaign this year has been one of the quietest ever known in this section of the state. While there are contests the different candidates have all taken the matter quietly and have gone about their regular affairs with a confidence that the results will be right. There have been no meetings and though the different aspirants have called on their friends, little talk is heard as to voting and choice.

Hon. Arthur M. Free, incumbent congressman from the 8th district, has as his opponent. Mr. E. L. Van Dellen, principal of the Salinas high school. Mr. VanDellen is an energetic, bright young man, a Stanford graduate and his pleasing personality has made him many friends. He will have an uphill fight, however, as Mr. Free has made a wonderfully fine record in Congress and so there is little reason for taking the position from him.

Senator M. B. Johnson has been making a real fight for reelection Senator Johnson was obliged to be in Texas for a number of months past settling the estates of his father and brother, and so was not able to keep affairs in his grasp as he would have liked to do. He has returned and is now calling on all of his friends. Senator Johnson has large holdings on the coast side of the county and his interests have made him a hard worker for San Mateo county. Much of the progressive legisation of the past eight years was brought about through the work of Senator M. B. Johnson. His opponent is Judge Fletcher A. Cutler of Burlingame. Judge Cutler has the backing of the Native Sons, of which he is a grand officer. He was for a term superior judge of Del Norte county, and has praticed law for a number of years in Humboldt county. He has resided in Burlingame for three years, and is now city attorney of that municipality. Judge Cutler is a seasoned campaigner and is making a thorough canvas of the district.

Frank L. Eksward has as his opponent again Chester A. Jones of Daly City. Mr. Jones is an affable young man and has been in the employ of the United Railroads for a number of years. Mr. Eksward, however, has made a fine record in the assembly, and so it is conceded that he will again represent San Mateo county in the lower house.

For the state judicial positions there is no contest so all of the gentle men running are sure of their nominations unless there should be write-in campaigns and such a thing is hardly possible.

In the supervisorial fights there have developed some hard contests. In the First township Thomas L. Hickey has as his opponent John J. Fahey, the Daly City realtor. Mr. Fahey was Mr. Hickey's opponent four years ago. During the four years that he has been in office Mr. Hickey has made a good record for himself. He has voted on the right side of every proposition that has come before the board. He has given his people good roads and has looked after their interests so it is more than probably that he will win.

In our own township, John MacBain has as his opponents, Harry G. Wash of Menlo Park and Edward Dearborn of Redwood City Both are fine gentlemen and are working hard. Mr. MacBain has been a thoroughly efficient official and so has his record behind him as a point in asking for suport. Mr. Walsh is an overseas veteran and Mr. Dearborn was for a considerable length of time superintendent of streets in Redwood City. All three of the candidates have many friends boosting for them and the results will be close. As is usual in such cases, however, the incumbent has a better chance that his opponents.

In the Fourth township Manuel Francis has as his opponent Charles A. Cavalli. Both are working hard and each claims that he will win. We are not well enough informed to hazard a guess as to the result.

Charles Lane Dies Suddenly

Charles Lane, a native of Halfmoon Bay, aged forty-three years, died sudenly at the home of a friend in San Francisco last Sunday. The young man was taken with a sudden attack of acute indigestion on Saturday evening, but became better and retired. As he felt easier after retiring, no alarm was felt by the friends. On Sunday morning it was found that he had passed away during the night.

Mr. Lane was a very estimable young man and resided here many years with his mother, Mrs. Jane Lane and his sisters, Miss Leonora Lane of the South San Francico school department, and Miss Jennie Lane, who at that time was in the county recorder's office. They moved to San Francisco five years ago. He had been employed by the Southern Pacific railroad company for the past twenty years and was held in high esteem by all who knew him.

The deceased was of a retiring and quiet disposition and spent a great part of his time at home. The funeral was from a San Francisco undertaking establishment and was attendend by a large number of former friends from Halfmoon Bay, Redwood City and San Francisco. Interment was in Cypress Lawn cemetery, an the services were conducted by the pastor of Calvary Presbyterian church which the young man attended.

Miss Minne Grey, superintendent of schools of Sutter county, and her daughter Eleta were in Redwood City visiting friends.

CALIFORNIA GLEE CLUB RETURNS FROM EUROPE

The California Glee Club of the state university, returned Thursday from their trip through the United States and Europe. The young singers have been away about three months and during that time have visited practically all of the nations of Europe. Last night a reception was tendered them in the Grek theatre in Berkeley. The last perfomance of the glee club before leaving was in the high school here, as a tribute to their president, Kendal Towne, son of Frank K. Towne of the First National Bank here. On the trip young Towne acted as manager of the troope. The trip was entirely successful and the boys enjoyed themselves immensely. Much of the success is due to the efficient management of the local boy.

Brenton Werder and Donald Kirtland left this week for Reno, Nevada, where they will attend the University of Nevada. Kirtland returns this year as a sophomore, he having attended there last year and enjoyed his work very much. Werder will enroll as a freshman. The university has a high reputation, and has been the alma mater of several of the young people from Redwood City.

John Poole, Redwood City's popular drayman and A. E. Monteith, city superintendent of schools, returned this week from a motor trip through the northern portion of the state. They report the country very dry, and say that fishing was poor on account of most of the good fishing streams being dry.

SATURDAY, AUGUST 23, 1924.

M. B. JOHNSON

ONE of the hardest fought campaigns of the primary election has been for the office of State Senator. The incumbent, Hon. M. B. Johnson is recognized as one of the ablest legislators in the state law making body. He is an indefatigable worker and can always be counted upon to vote on the right side of a proposition. Whenever the people of San Mateo county have needed assistance at Sacramento they have found Mr. Johnson ready and willing to take up their cause and he has in practically every case secured what his people wanted.

While Mr. Johnson's duties have taken him away from the state for some months past he can be counted upon to be at Sacramento all during the coming session as he has been at each session when he was a member of the legislature and he will represent his district as ably as he has in the past.

The campaign for the senate has been clean and Mr. Johnson's opponent is one of our finest citizens, but we believe that faithful service should be rewarded, Mr. Johnson has proved his worth to San Mateo county. He should be reelected.

ARTHUR M. FREE

HON. ARTHUR M. FREE, Congressman from the 8th district of California, is a candidate for reelection. Mr. Free has represented this district at Washington for the past four years. He has come to be known as one of the best legislators in the national capital. Because of his activity, he has been assigned to some of the most important committees in Congress and his seniority gives him a recognized standing on those committees. Mr. Free is also conceded to be one of the best speakers and debaters in Congress. His years of service as district attorney in Santa Clara county and his activity as a public speaker during the war gave him a readiness of speech that is far above the average. Mr. Free has consistently stood for the best interests of his constituents.

Mr. Free's opponent is a fine upstanding young man, but he would have much to learn before he could be of service to his constituents that the incumbent will be. Furthermore we believe that a good man should be retained when we have one. Many important issus will be before Congress in the coming session. We know that Mr. Free will represent us ably. We, therefore, urge all of the electors of this sction to vote for him at the election next Tuesday.

DESTROYING WAR

IT is assuring and gratifying that in the general movement throughout the civilized world to outlaw and abolish war, there is none more earnestly outspoken in support of this movement that President Coolidge or the democratic nominee, Mr. Davis.

Both have made it clear that this grand movement has their unqualified support. Both agree with the vast number of right-thinking people that war is a creature of savagery, passed down through the ages from the time of primitive man, and no longer tolerable among civilized people.

Until the nations and peoples of the world come to a like realization and join in this movement it would of course be most unsafe and unwise for the United States to destroy its armaments or fail to keep them at a standard sufficiently strong to safeguard against foreign aggression.

But the United States, now the premier of nations, constituted of people devoted to peace and abhorance of war, is obligated by the standing among nations it has attained and its influence in world affairs, to lead the movement for universal disarmament.

Wherever and whenever the question of disarmament arises, the strong voice of this government should speak up in its behalf.

President Coolidge and Mr. Hughes, his secretary of state, took a long step in the right direction when they called a conference to consider the question of disarmament. That was the first real step towards outlawing war ever taken and resulted not only in halting an orgy of battleship construction which presaged greater war, but it turned the world-mind from troughts of war to thoughts of peace. It was an accomplishment when rightly appraised that will illumine the pages of history for all time, for it set ineffaceably the seal of condemnation on the adjudication of national differences by military arbitrament and turned the dynamic thought of the world from war to peace. What an inspiring thought that war, the most destructive of all monsters, is itself to be destroyed!

MARIE MERRILL MARRIED AT HOME TUESDAY

At a pretty wedding ceremony at high noon upon the lawn of her parents' home, Wellesley Park, Miss Marie Merrill, daughter of Mr. and Mrs. George A. Merrill of this city, became the bride of Claude E. Peavy of Long Beach.

The ceremony was performed by Rev. R. J. Currie of the Redwood City Congregational church. The bride was attended by Miss Dorothy Shepard of Palo Alto and Chester Gibbs of Santa Maria, acted as best man, while Aurelia Blood, carrying a basket of sweet peas, made a charming little flower girl.

Following the ceremony a wedding luncheon was served to the many guests, and the young couple left for a honeymoon to be spent in the northern part of the state. Upon their return the young folks will make their home in the Merrill residence during the absence of Mr. and Mrs. Merrill, who are leaving shortly for the East. They will remain there until the completion of their home in Wellesley Park.

Miss Merrill is a charmingly pretty girl. She is a graduate of the local grammar school, of Lux school in San Francisco of which her father is principal, and of Stanford University. She graduated from the latter institution last year. The groom is also a Stanford graduate, and is conected with the new cement plant just opened here.

M. L. McKEEVER NAMED DEFENDANT IN DIVIRCE

Suit was filed here last week by Mrs. Mable L. McKeever for divorce from Myron L. McKeever. In her action Mrs. McKeever charges cruelty and cites instances to prove her point. During their whole married life, says the complaint, the defendant never bought her a pair of shoes, necessitating her to take in sewing to support herself. On one occasion the complaint continues, McKeever took her to Los Angeles and there gave her a ticket to Gilroy and one dollar, and himself left for a trip to the east. From Gilroy she had to come home on money borrowed from friends. Mrs. McKeever asks alimony and a rstraining order to prevent the defendant from disposing of any community property.

Mis Winnifred Van Hagen, assistant supervisor of physical education of the State of California, was a Redwood City visitor Thursday. Miss Van Hagen is a sister of Miss Sayer Van Hagen who was for several years connected with the local school department.

SUPERVISORS HAVE RECEIVED REQUESTS FOR SOME MONEY

Matters of Road Improvement Are Taken up by County Board at Their Regular Meeting

At the regular meeting of the board of supervisors of San Mateo county last Monday, County Engineer George A. Kneese, reported that W. W. Thompson had completed his contract for refinishing the Half-moon Bay-Crystal Springs road, and he recommended that the road be accepted by the board. The recommendation of the county engineer was accepted by the board and a resolution passed accepting the road.

In a letter addressed to the board of supervisors Asa Hull, president of the Las Pulgas mosquito abatement ditrict reported that the appropriation needed for carrying on the work of the district for the coming year would be $8,200. A communication from Frank Exward, assistant secretary of the Three Cities mosuito abatement district stated that the needs of that district for the coming year would be $10,000. Both communications were referred to the auditor.

A petition for changing of the name of the Tobin school district to Rockaway school district, which had been presented at a previous meeting and laid over until that time was then taken up and the petition granted. No one appeared to protest the change.

Estimates were received from the Great Western Pwer Company for supplying power to the Half-moon Bay and Montara lighting districts. The sum for these two districts were $748.20 and $15,751.-60. Both estimates were referred to the auditor.

A budget of expense for the coming year was presented to the board by Miss Edna Holroyd, county librarian. Miss Holroyd asked for $15,885 to cover the expense of the county library and branch libraries. This communication was filed and will be taken up later.

J. J. Sullivan, poundman of the First district, tended a written resignation, which was accepted.

The matter of an approach from the Comstock road in the Redwood Park district to the Skyline boulevard was brought before the board in a communication from Davenport Bromfield, an extensive property owner in that section. In his communicaton Mr. Bromfeld stated that in grading the Skyline road the California Highway Commission had made a fill of five feet across the Comstock road, a public road of that section. He asked that an approach be built to bring the Comstock riad on a level with the Skyline road. The board decided to take this matter up with Engineer Skaggs of the State Highway Commission.

County Health Officer Dr. F. H. Smith was present at the meeting and was directed by Chairman Thompson from the Fifth district to investigate health conditions along the Pescadero and San Gregorio creeks. Water conditions along the creeks, it is said, are unsanitary.

Supervisor Brown brought before the meeting the matter of widening the turn where the Belmont road meets the Skyline boulevard. This turn at present is very sharp, and according to Mrs. Brown the Spring Valley Water Company has offered to donate the right of way for extending the turn and making it safe. The board voted to have County Engineer Kneese survey the turn an determine to what extent the right of way will have to be extended.

The board appointed Harry Robb as trustee of the Three Cities mosquito abatemept district to fill the vacancy caused by the death of his father, the late Jesse Robb.

WORLD'S STANDARD OF TIME

This clock, the most perfect timepiece in the United States, is the world's standard of time. It is located in a vault at the Bureau of Weights and Measures at Washington. Professor Ibson of the Bureau is shown examining the clock.

WORLD'S SMALLEST SWIMMER

Robert Feld, world's smallest swimmer, seems contented enough in the suitcase held by Miss Patsie Oliver. Who wouldn't be contented with such a charming means of support?

FOR SUPERVISOR
Fourth Township
San Mateo County
Charles A. Cavalli
ELECT HIM AT THE PRIMARIES

To the Voters of the Fourth Township:

As you are no doubt aware long before this time, that I am a candidate for the office of Supervisor of the Fourth Township of San Mateo county, and realizing that it is impossible to interview each and every voter personally, I take this method of acquainting you with a few facts which I shall try my utmost to attain as Supervisorial representative of the Fourth Township.

The coastside of San Mateo county is on the verge of an era of prosperity, such as never before has been attained, and many matters, new to the district, are in vogue and which will come before the governing body of San Mateo county—the Board of Supervisors—during the next four years, and to successfully meet each issue it will require a man who can and will go on his feet and use his voice in securing new concessions for theFourth Township, as well as defending those now in force.

TAXES—Realizing the fact that we must have the necessary funds with which to run our county government, and that improvements of whatever nature, must be paid for, it will be my earnest endeavor to work for and advocate as low a tax rate as consistant with county needs.

GOOD ROADS—It will be my endeavor to secure for the Fourth Township of San Mateo county, new roads whenever and wherever possible, and knowing how badly a new boulevard is needed toward San Francisco, I shall do my utmost to secure such, as well as use my voice and assist in securing the proposed tunnel through the Sierra Moreno mountains which would prove such a wonderful achievement for the San Mateo county coastside.

A BUSINESS ADMINISTRATION—In this it would be my pleasure to give to the Fourth Township, a thoroughly business administration, such as would prove of value in looking after the various matters as would be necessary in caring for the best interests of all official business of the Fourth Township with practical methods.

During the next four years the San Mateo County Board of Supervisors will be called upon to legislate matters attentative of two trans-bay bridges, the building of new hoghways, especially on the coatside, the buiding of the tunnel, the amalgamation with San Francisco and the matter of re-districting the county. The re-districting of the county, means the re-arranging of the various supervisor districts, and changing the boundary lines. This would mean the doing away with a Supervior for Half Moon Bay, as we would then be attached to the San Mateo district. With such vastly important matters to come up in the near future, the Fourth township should be represented by a man who is willing and able to go to the front and look after the interests of the coastside in events to come.

In conclusion I desire to thank the citizens and voters of the Fourth Township one and all, and say that if I am chosen to represent the township as supervisor for the coming four years you will always find me in the front ranks using my voice and influence, and to the very best of my ability, looking after the welfare of San Mateo county in general and the Fourth Township in particular, that I may be truly a representative of the people and for the people.

Again thanking you and soliciting your votes on Tuesday, August 26th, 1924, I am,

Very truly yours,

Charles A. Cavalli

EDUCATION

EDUCATION: The educational interests of American children are of national concern. While no undue burdens must be forced upon the government, we should not economize at the expense of future generations. The problem of education is such scope that problems of illiteracy, Americanization and the combating of ignorance need the active aid and encouragement of our national government for their proper solution. Popular education and our common schools should have the active support of the national government.

KNIGHTS OF COLUMBUS WILL HOLD CARNIVAL AT SAN MATEO

Catholic Organizations of San Mateo County Will Combine to Make Success of the Pagaent

The carnival which the Knights of Columbus of San Mateo Council will hold at their building on Baldwin avenue in San Mateo on Sept. 10, 11, 12 and 13 will be a varied entertainment set in a mass of color and an abundance of brilliant lights. The committees on decoration and lighting under the chairmanship of Paul Sonntag of Burlingame and Jos. P. Hahir of Redwood City have completed their plans and will soon be at work on setting flags, bunting, ribbons and greens with strings of electric lights and lanterns to show them off.

Miss Helen Robinsos of San Mateo is assisting J. J. McGrath in arranging the varied program of entertainment for the four nights. In the large salon on the upper floor, fine vaudeville numbers, differing each night, will entertain the revelers at the carnival. Talent from San Francisco as well as the peninsula has been secured and enjoyable vaudeville numbers are assured.

W. Coleman Hall warden of San Mateo Council, and an efficient committee have arranged to have the services of one of the finest orchestras on the coast to give the dance lovers the latest and best music for the dances which will be held in the automobile salesroom, formerly the gymnasium of the building.

Season tickets which are one dollar each will admit to the entertainment or the dance each night. All the other features are free and the public is invited to join the crowds of people who will be thronging the spacious building of the "Caseys."

Frank Meyer's committee is preparing to show a real carnival spirit at the Forty Nine Camp show where games of all kinds, including some not often seen nowadays, will be enjoyed by the guests. Red bandana, brown shirts and high boots together with a whiskered bunch of "miners" will give a realistic touch to this feature.

A Radiola Superheterodyne radio set will transmit the best entertainment from San Francisco, Oakland and Los Angeles to those attending the carnival and the jazz music from the metropolitan hotels will liven up the carniv l groups. This radio set will be given away during the carnival and fortunate indeed will be the recipient, for nothing finer is made.

As no carnival is complete without something to nourish the inner man, so this feature has not been overlooked. Lou Pollard and his faithful assistants, will preside over the billiard room and annex where hot and cold refreshments and light lunch will be served every evening. Lou's hot dogs, coffee, sandwiches, ice cream and cold drinks are famous rrom Redwood City to South San Francisco.

Other features which are free to the public are the decorated booths from which groceries, jellies and jams, cakes, kitchenware and electric utensils will be dispensed. Ladies from the Catholic Daughter of America, Young Ladies Institute and other organizations are assisting the Knights in these features of the carnival. Among the leaders of these committees are Mrs. William Killelea, Mrs. Jos. Quinn, Misses Christine O'Brien, Claudia Robinson Ruby Whitmore, Bess Darcy and Lorraine Blythe and Messrs. Walter V. Pepin and A. W. McMoyler.

Jos. J. Hahir of Redwood City, former Grand Knight of San Mateo Council, who conceived idea of the carnival, is directing and co-ordinating the work of all the committees. Speaking of the carnival, Mr. Hahir said: "All the committees are showing a great spirit and wonderful zeal in preparing for the carnival. Our program is well worked out and the public will be delightfully surprised at the splendid show we will give them. Tell the people of San Mateo county to set aside Sept. 10, 11, 12 and 13 for the Knights of Columbus carnival at San Mateo."

NOW IF THE BOARD WILL JUST HOLD UP A WHILE.

ADVENTURES AND DISCOVERIES IN CHINA

Thrilling stories of adventure and interesting scientific discoveries have been reported to the National Geographic society by Joseph F. Rock, discoverer of the chaulmooga tree that yields a leprosy-combatting oil, and leader of the society's expedition into Yunnan, a vast and little explored province in southwestern China.

Mr. Rock, a well known plant authority, has just returned to Washington and in narrating his experiences, tells of finding in Yunnan aboriginal tribes who still practice religious ceremonies that predate the introduction of Buddhism, and the discovery of a blight-resisting chestnut tree, which it is hoped, will aid in the restoring the diseased chestnut timber crop of the United States.

The explorer brought back from the wilds of the Chinese province some 1,700 specimens and more than 60,000 plants. He also came into possession of books used by the Nashi, or Moo priests, containing ancient writing in picture form. The books also antedate Buddhism in China and Thibet and include a story of a great flood.

During his adventures Mr. Rock traversed a hitherto unexplored gorge of the Yangtze rover, described as much deeper than the Grand Canyon of the Colorado. The crossing of streams presented one of the most difficult problems of the expedition, Mr. Rock and his 23 native assistants and pack animals having to be swung across them on a single-strand rope bridges. The party also had narrow escapes from bandits along the China-Thibet frontier.

WAGNER FESTIVALS REVIVED

Ten years after the declaration of war against Russia by Germany brought the Wagner festival to an abrupt close in the middle of a performance, the festivals have been revived at Beyreuth, Germany, when "Die Meistersinger" was presented in the special theater which Richard Wagner brought into existence 48 years ago.

Music lovers from all over the world gathered to attend the revival which has been the dream of Frau Cosima Wagner, 86 years old, widow of the composer, whose son Siegfried made the restoration of the theater possible by raising funds in the United States.

General Ludendorff and former Czar Ferdinand of Bulgaria, who were among the chosen guests who attended the final rehearsals of "Gotterdaemmerung,' gave the affair a decidedly nattonalistic flavor. Frau Wagner attended the final rehearsal of "Parsifal' but the guests were not allowed to talk with her, and she was not able to attend the public performance because of her frail health.

HUSBANDS FOR GERMAN WAR WIDOWS

The German government is giving official recognition to Cupid as a possible aid in helping to tide the country over its post-war financial tangles. The war pension bureau has originated the idea of having every able-bodied widow of an officer or soldier who lost his life in the war and who has been drawing a regular allowance from the government, to look about for another husband. In this way the pension bureau hopes to relieve itself of a great deal of responsibility. The pension bureau offers to assist the war widows in finding husbands, and also volunteers the information that if Cupid fails to respond, then the bureau will help the widows find work, with the understanding that they give up their pension claims which in most cases amount to about $8 a month.

EX-CROWN PRINCE SEEKS A HOME

The former crown prince of Germany is seeking a home in Florence. Members of his entourage have visited the Italian city, in the suburbs of which the former Queen Sophie resides, on a hunt for a villa for his family. The Italian government has given permission to William Hohenzollern, Jr., to establish permanent residence in Italy, provided only that he select a spot nowhere near the German border. Living in Germany had become unbearable to the former crown prince, it is generally known, as he was continually under surveillance. His children are going to school in Italy, while his brot , Frederick, has been in business t Meran for the last year.

KIWANIS BUNDLE DAY PROVES BIG SUCCESS

Tuesday was "Bundle Day" for Redwood City Kiwanis Club, and bundles of majestic proportions formed an important part of the attire of each Kiwanian as he approached the Sequoia hotel prior to the luncheon hour. Old clothes of all descriptions and dates were assembled hetrageniously in the lobby of the hotel before the luncheon began and many Kiwanians parted with garments of early vintage which had been their constant companions for many years.

The collection of clothing was turned over to the San Mateo County Tuberculosis Association and will be used by them, either sold or repaired and given to needy families, in their fight against tuberculosis.

The meeting of the club was called to order by the president, E. B. Hinman, who announced that the meeting would be in charge of James D. Hedge. The meeting was then turned over to him and after some preliminary remarks he introduced the main speaker, Fred D. Parr of the Parr Terminal Company of San Francisco.

Mr. Parr in his remarks dwelt upon the work of the Kiwanis clubs in combatting the evil influences of Bolshevism, I. W. W. and other anarchistic organizations. He read passages from a book published by the "Reds" to illustrate the perverted ideas taught by such propagandists.

There are today over 800 Kiwanis Clubs, the membership in which include the leading business and professional men in the United States and Canada. Kiwanis was organized seven years ago in Detroit. Today, it is international. If a man makes a thing better than was known before, though he live in the forests, the world will wear a beaten track to his door. So said Thoreau and Kiwanis has proven the truth of the statement.

Kiwanis is not interested in the specific thing. It is intereted in an indefinable something; something however, that is none the less real. That something is the soul of a community; the thing that made Babylon gorgeous and wicked, Athens intellectual, and makes your city either a nonentity or a place with a personality.

The Kiwanis idea, in the abstract, is valueless. Only when that idea is translated into terms of human experience, are we conscious of its dynamic power.

Many of the most powerful forces of life are only comprehended in their application. The real meaning, value and power of the Kiwanis idea is evident only as one analyzes its effect upon the lives of Kiwanians.

The competitive basis upon which modern business is conducted has tended to promote the accumulation of wealth to the exclusion of any higher motive for business enterprise.

Many men have looked upon their business or profession solely as a means of earning a livelihood. While under the false exhilaration of amassing dollars it has been all too easy to fall into questionable business practices.

Kiwanians have a higher motive for business enterprise than the accumulation of wealth. Kiwanians see in their respective vocations opportunities to serve their fellow men. Service to others becomes the motif of the Kiwanian's life. A high estical standard of business conduct is a by-product of the service idea.

EXPLORERS SEEKING BIG WATERFALL

The exploring party of the National Museum of Canada, operating in the Bella Coola valley and MacKenzie park regions of British Columbia, has been told of a waterfall in the park area, said to be at least 800 feet high. Some estimates of the fall place its height at 1,200 feet. The explorers will endeavor to locate it during the summer. The fall is said to be at the outlet of Turner lake, in the "Norway of Canada," and near the outlet of the Arhabasca river, just below Lonesome lake.

If the falls are found by measurement to be 827 feet high, they will be the loftiest in the western hemisphere, outside of the Yosemite valley of California. If they exceed 800 feet, they will be the highest in Canada. The expedition plans to make still and motion pictures of the falls for the National museum.

A new road, the MacKenzie highway, is now open to automobile tourists as far as the Smoke house, near Stewie, which is 41 miles up Bella Coola valley from the sea.

MILK TO INCREASE JAP STATURE

Japan will try good cow's milk as a national diet in order to add inches to the stature of her people, declares Dr. Atsushi Miyawaki, professor of dairying at the Imperial university. The first shipment of the American pure-bred cattle purchased in various parts of the United States amounted to 141 animals.

The band of four-footed passengers attracted wide interest from movie camera operators. To all of this the herd, from a handsome bull down to the yearling heifers, seemed to be oblivious. Eleven shepherd dogs were among the cattle as well as American farm hands to look after the feeding and care of the prize cattle. Padded crates or stalls were built on the upper deck fore and aft, and each animal was well protected from the sun and any bad weather.

In late years there has been a widespread alarm in Japan over the increasing smallness of the new generations.

Pushing Back the Wall

"THE vast territory covered by these lines at once strikes the observer, and some conception may be had of the importance of the long distance telephone in the business world of the east."

This was the contemporary comment of a scientific journal on the long distance telephone service of 1890. The "vast territory" ended with Pittsburgh on the west and Washington on the south. Along its frontier stood a wall of silence.

No such barrier now confines the voice of man. To places and to people he has never even seen fly his wire-borne thoughts. Over distances which it would take him days to travel his words speed in an instant.

The 90,000 miles of toll wire of 1890 have grown to more than 4,500,000 miles carrying a daily average of more than 1,600,000 long distance conversations.

Thus has the wall of silence been pushed back to the edges of the continent. In its place is a nation-wide telephone service.

Protectors

SHOULD a wild storm tear down transmission lines from the hydro-electric plants in the mountains, these ever alert and watchful steam plant operators are at your service.

At the big steam plants massive boilers and huge turbines are day and night held in readiness. In an instant these men step them up to full capacity, often without even the slightest flicker of your lights. The steam plant furnishes the deficiency in electric energy should the hydro fail.

Proud of their record for continuous service, these men hold eternal vigilance and assure you of ever ready electric energy necessary for your comfort and convenience.

Town Trustees Vote Duane St. Extension

The extension of Duane street in Redwood Highlands to intersect with Arlington road in Wellesley Park was considered by the board of trustees last Monday evening after it had been considered by the planning commission and by them recommended. The board passed a resolution ordering the city engineer to prepare plans and specifications for the work of extendng the street. At the present time only a block divides Duane street and the streets of Wellesley Park, yet no entrance exists into Wellesley Park between the Highway and Woodstock Place, a distance of half a mile. If the present plans are adopted the short piece of new street will form a connecting link between the two residential subdivisions.

Several residents of the district to be paved in the vicinity of the old jail were present at the meeting Monday night for the purpose of protesting against the cost of the proposed paving on Hilton, Spring and the other streets which it was proposed to pave. It was shown by the board that the specifications called for the best type of paving for the streets and the high cost was due to this fact. The lower rate of cost would result in a poorer type of construction, it was said. The matter was laid over for a week to enable the property owners to come to some conclusion in the matter, ,, ,

Following a recommendation made at a previous meeting by the planning commission, the board passed a resolution amending the city ordinance regulating the establishment of industries within the town. It was ordered that the city attorney change the ordinance to provide that no sanitorium be established within the city without a special permit from the board of trustees.

It was decided by the board of trustees that the salaries of three of the city employees should be raised from $150 to $175 per month. The three effected by this order are Bert Werder and Robert Bell, firemen and George Hopkins, gardener.

The request for more lights in California square was brought before the board by George Hopkins for residents living in the vicinity of that park, and was referred by the board to the city electrician.

The claim of Ed Dearborn for $1,541.75, partial payment for the construction of the culvert on Jefferson street was passed by the board.

ooo

POLAND'S NEW OUTLET TO SEA

Arrangements have just been completed for the construction of the port of Gdynia, near Danzig, the site assigned to Poland for an outlet to the sea. The work, which is to begin immediately, is to be completed by January, 1930. The estimated cost of the enterprise is 35,000,000 gold francs which will be paid by the Polish government in seven yearly installments the first payment to be made in 1927. An additional contract for the port equipment, such as cranes, etc. will be signed shortly by the Schneider-Creuzot firm, the estimated cost of this supplementary work being 15,000,000 gold francs. The depth of the port will be 33 feet, thus enabling large vessels to enter. This is the first important investment of French capital in Poland.

GREEK VANITY CASE OF 500 B. C. FOUND

Professor Semenov Zusser, Russian archaeologist, has unearthed 160 ancient Greek tombs of striking design in the dead city of Alyva, near Odessa, and among the artcles found in the tombs was a small linen bag containing a mirror and believed to be the forerunner of the present day vanity case. In the bag there also were a rouge stick for the lips and a charcoal pencil for the eyebrows. The bag was found in a woman's grave with tufts of false hair and a number of silver bracelets, earrings, beads and other jewels.

In other tombs were discovered pottery of exquisite workmanship, mult-colored vases, amulets, knives and various articles of bronze and copper, all in a perfect state of preservation.

The excavatins, which have been in progress for many months, thus far have yielded more than 1,700 articles of surpassing antiquarian interest.

Olyva, which means "merry," was once a center of Greek learning, culture and trade, and flourished about 500 B. C. Later it became known among the Russians as the "Pompeii of the Black Sea."

Greek emigrants from Asia Minor selected Olyva, Herodotus records, because "it is free from malaria, and its air is pure and transparent as crystals.' From a thriving, prosperous port for the rich goods of the the East, it became in the course of centuries a pauper colony existing solely on the revenue from occasional traders. Originally the population of the city worshipped the Greek gods, in whose honor they erected temples. Today the city is a mass of ruins, and the tombs excavated by Semenov Zusser are the only witnesses to its past greatness.

ANAESTHETIC MARVEL DISCOVERED

A new anaesthetic, claimed to be far superior to any hitherto employed, is being used by Dr. Fredet of the Hospital de la Nouvelle Pitie, in Paris. The anaesthetic is called "sommifere." In doses of ten to fifteen cubic centimetres it is injected in the veins after previous injections of morphine or scopolamine.

The account given the French Surgical society says the resulting anaesthesia is complete, permitting the longest and most serious operation. The patient remains 24 to 36 hours afterward in torpor from which, however, he can be roused from time to time for food. There is no sickness or ill efects on the liver and kidneys.

DESIGNS FOR LENIN'S TOMB

Thirty-two samples of the finest marble from the Lake Onega district have been taken to Moscow for examination by a special commission, which will decide upon the design for a permanent mauseleum in Red square for Nickolai Lenin, former soviet premier. A proposal to use the rarest and most costly red porphyry is being considered by the commission. The ablest architects and sculptors in Russia have been asked to submit designs for the new tomb, which is to replace the present wooden structure in front of the Kremlin. Some members of the commission favor a shrine of heroic proportions, like the tomb of Gen. Ulysses S. Grant in New York, while others urge a smaller and less elaborate memorial, which they declare would be more in keeping with the simplicity of Lenin's life. Work is still going on at the reembalming the body of the revolutionary idol.

TELEPHONE COMPANY ARE NOW INSTALLING A NEW SYSTEM

System Now in Use in Redwood City Will be Installed in College City Beginning Aug. 30

To facilitate the handling of the great number of telephone calls made daily by Palo Alto and Menlo Park residents, the Pacific Telegraph Company, according to Manager J. D. Worthihgton, will soon complete the installation of audible ringing devices in the local Palo Alto telephone exchange which includes all the territory to Selby lane. With the new apparatus in service "Central" will no longer have to say, "I am ringing them," for, instead, the person calling will hear a soft purring noise each time the operator rings the telephone bell of the person called. With the completion of the complicated work attendant upon the installation of the audible ringing system, about August 30, Palo Alto will have acquired another telephone appliance for making the telephone service here equal to that of the largest cities.

"Audible ringing," said Manager Worthington, in an interview, today, "means merely giving the calling subscriber tre ability to hear a soft purring sound every few seconds, over the line, each time the called party's telephone bell is rung by "Central" or the operator handling the call. The new audible ringing device enables the person calling to know that the number which he has reuested is being rung, without the necessity of the operator saying, at intervals, "I am ringing them."

"Although it would seem that the personal touch between subscriber and the telephone operators would be broken by the use of the audible ringing system such is not the case, for, in hearing the purr of the audible ringing over the line, the knowledge that the number which he called is being rung is brought home to him in a decisive and pleasant fashion. The purr of audible ringing is very soft and can, under no circumstances, hurt the listener's ear.

"Previously," said Manager Worthington, "the ringing impulse, or rather the current which rings the called party's telephone bell has been sent over the wire leading to that person's telephone. With the audible ringing device installed, the ringing impulse will, by means of modification of the circuit, be also sent over the line to the calling party's telephone receiver. This modification of circuit is brought about through the use of an intricate electrical mechanism which softens, so to speak, the current, or ringing impulse reducing it to the purring noise always accompanying the use of the new system."

Audible ringing is now used in the larger cities and has met with the approval of the millions of telephone users residing in them. It is already in use in Redwood City, having been adopted in May 1923.

REDWOOD ICE DELIVERY

317 Washington St. Phone Redwood 155

in weather like this - use ICE every day!

In changeable weather, perishable foods *cannot* be kept properly without ice. Any time the thermometer climbs as high as 50 degrees (even if only for an hour or two) your milk, butter and many other foods are affected—not spoiled, but robbed of much of their food value. Sickness and undernourishment in children are often caused by improperly kept food. Take ice *regularly*. It's the only *safe* way.

Food is expensive. Ice is cheap. The regular use of ice will pay for itself in the food it saves.

A few cents a day to keep your refrigerator filled with ice will save many dollars worth of food every month.

SAN FRANCISCO EXCEEDS MARYLAND IN TELEPHONES

The magnitude of San Francisco and the phenomenal progress of the West is exhibited in a comparison of the number of telephones in use here and the number in operation in Maryland, one of the oldest states in the Union. There are only 162,500 telephones in Maryland, while there are 187,454 instruments in San Francisco. Maryland sends 800,000 telephone messages every day, while San Francisco sends over one million. In each case the peak of the messages are crowded into a period of a few hours each day, bringing a heavy strain on the telephone equipment and attendants. The phenomenal development and expansion of Central California would be vividly exhibited were the total telephone facilities required by its inhabitants compared with those new used by various eastern and southern commonwealths.

CALIFORNIA WEEKLY INDUSTRIAL REVIEW SHOWS GOOD PROGRESS

A Spirit of Optimism Seems to Permeate the Entire State and all Look for Better Times

Upper Lake—710 acres of lake-front land to be converted into productive farming belt by construction of three-mile levee; work to start at once.

Santa Maria—O. C. Marriott Company starts work on foundation of new $50,000 ice plant.

Lankershim—Ground broken for erection of $500,000 Patriotic Memorial building.

Oroville—Big masonry dam being erected in Concow creek to be completed August 16; 6,000 acres to be irrigated by project.

Biggs—Reorganized Sacramento Valley bank reopens main bank here and branch at Butte City.

Hamilton City—Local sugar beet factory, representing $1,000,000 investment, to be opened if farmers assure sufficient beet production.

Quincy—California Fruit Exchange starts construction of $250,000 railroad into Jamison canyon to tap 200,000,000 foot timber belt.

Sacramento—Concrete bridge to be built over Arcade creek on Del Paso road.

Seal Beach—Los Angeles Gas & Electric Company starts construction of $15,000,000 plant which when completed, will furnish greater part of electric power for City of Los Angeles.

Oakland—Western Waterfront Industrial Association, organized by 27 industrial firms in this district, to sponsor development of waterfront and facilitate shipping.

Berkeley—Cornerstone laid for erection of $250,000 Methodist Episcopal church.

Sebastopol—Sixty carloads of apples shipped east in single day, establishing high record for present season.

Oroville—Board of supervisors order plans and specifications for proposed Oroville-Las Plumas road.

Chico—Chico hotel, recently damaged by fire, to be reconstructed.

LosAngeles— Pan-American Petroleum and Transport Company opens $1,000,000 terminal.

San Francisco—Gas street lamps, maintained since before the days of 1906 fire, to be replaced by electric illuminating system.

Los Angeles—Contract awarded at $978,000 for erection of 13-story office and store building at Sixth and Grand avenue.

Watsonville—Union Ice Company to build $500,000 ice plant having daily capacity of 125 tons.

Oakland—Key System Transit Co. improving pier terminals at approximate cost of $65,000.

Hornbrook — California -Oregon Power Company assembling material for construction of dam and hydro-electric plant at Fall creek.

Quincy—F. S. Murphy Lumber Company completes incline grade for opening vast tract of timber that is estimated will require 15 years to cut.

Laguna Beach—New road to be constructed between this city and Newport within next six months.

Orange—West Coast Textile Company to start immediate construction of $30,000 factory.

Wilmington—Swift Fertilizer Company spending approximately $100,000 enlarging local plant.

Newport Beach—Actual construction of $500,000 Corona del Mar club on Balboa palisades started.

Compton—Modern brick business building to be erected at Main and Wilmintgon streets.

Los Angeles—Exports through local port for month of July show increase of $5,000,000 over July, 1623.

Twenty per cent increase expected in California sugar beet tonnage this year over 1923.

Korbel—Work on new standard gauge railroad up North Fork of Mad river to Northehrn Redwood Lumber Compan's timber holdings progressing rapidly.

San Rafael—Contract to be awarded for construction of $100,000 Masonic temple.

Riverside—Building permits calling for expenditure of $115,493 issued during month of July.

La Verne—La Verne Co-operative Citrus Association to start construction of $50,000 orange and lemon packing house.

Santa Anna—Vitagraph Company of Amerira planning to build $250,000 moving picture studio here this fall.

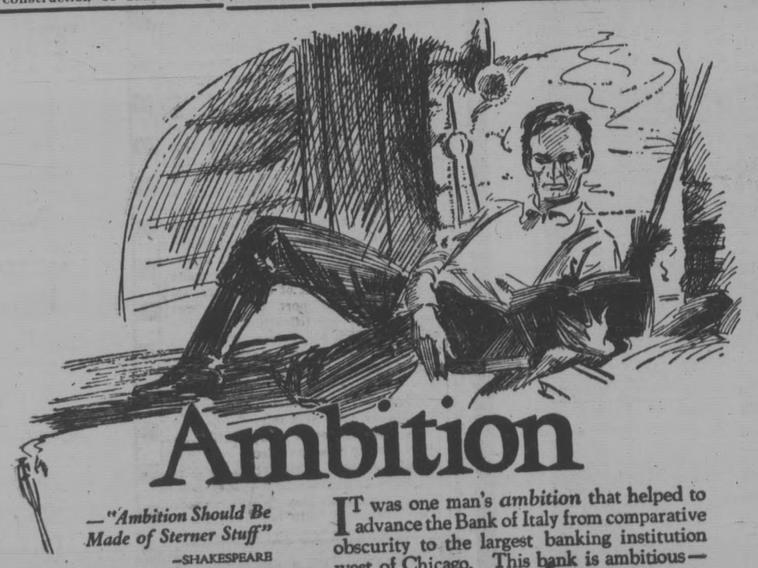
Berkeley—Pacific Telephone and Telegraph Company breaks ground for $500,000 building.

Martinez—Chipman Chemical Co. to rebuild $100,00 plant, recently destroyed by fire.

Lo Jolla—Sripps Memoral hospital, that cost $250,000, is opened.

Mrs. A. W. Pike of Oakridge Farm, Redwood City, arrived in Stockton Wednesday, August 20, with her champion stallion, San Juan and Prudence, a polo horse which are entered in the night horse show feature of the San Joaquin County Fair that starts today.

Mrs. Pike's San Juan is unquestionably the handsomest horse on the ground. Mrs. Pike is recognized by horse experts as being one of the most proficient women riders and drivers on the coast, being equally at home on three and five-gaited saddlers or in putting a jumper over a stiff hurdle. She is also an accomplished whip and is in much demand when ladies' driving classes are to be shown.



Ambition

—"Ambition Should Be Made of Sterner Stuff"
—SHAKESPEARE

The Bond Department of this bank offers an unusual service for investors

IT was one man's *ambition* that helped to advance the Bank of Italy from comparative obscurity to the largest banking institution west of Chicago. This bank is ambitious—to serve, to build, to grow.

If you have ambition—you can *save* and *succeed*. Without ambition very little would be accomplished.

Ambition is not essentially a talent or an inherited trait—you can develop it within yourself. An active savings account will help.

FORMER REDWOOD BOY RIVALS HOLLAND'S HERO

Those who remember Ed. Pitcher when he was attending the grammar and high schools here will be interested in the following item appearing in the Leavenworth (Washington) Echo.

Ed. Pitcher, ditchwalker on the Icie irrigation system, ought to have his virtues sung in the pages of history, along with trat of the boy who held back the flood waters by closing a leak in a dike with his finger.

Monday Ed. and his boss, Jake Craswell were examining the ditch and at a point above Wm. McDonald's ranch a mile east of town they found a leak in the wall of the ditch. They had nothing to stop it with, and as it was necessary to do so at once. Ed. flopped down in the ditch and closed the hole with his body, while Jake took steps to have the water turned out at the spillway, which was done by Mrs. Avey Jellison, wife of the ditchwalker on the upper section, who climbed the hill and diverted the water. Craswell, in the meantime, went to the McDonald ranch and secured help and a number of gunnysacks and returned to where Ed. was holding back the flood, and the sacks, filled with dirt, were soon put in place of Ed's body. Ed. was so cold and stiff by this time that he could barely move, but we understand, recovered without ill effects. His wit and willingness to undergo a trying ordeal undoubtedly saved the corporation a neat sum of money and insured a flow of water to the ranches served with but a slight interruption.

Last Friday there was a break in the ditch at a point abobe the Rumohr ranch. This, it appears, was caught in time to prevent damage and to be readily repaired.—Leavenworth Echo.

Hugh Clary, a former Redwood City boy and a graduate of the Antioch high school with the spring class, left this week for New Mexico to enter a military school.

LEGAL NOTICE

NOTICE OF SALE OF REAL ESTATE AT PRIVATE SALE

In the Superior Court of the State of California, in and for the City and County of San Francisco.

No. 29006, Dept. 10

In the Matter of the Guardianship of the Person and Estate of Winthrop Dent Sonntag, a minor.

JAS. T. O'KEEFE, Attorney for Administratrix.

First publication in Times-Gazette, August 16, 1924; last publication, August 30, 1924.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO

In the Matter of the Petition of LUIGI DELUCCHI to Establish the Fact of Birth of MARIO LUIGI DELUCCHI.

NOTICE OF TIME AND PLACE SET FOR ESTABLISHING FACT OF BIRTH.

NOTICE IS HEREBY GIVEN that the Petition for the Establishment of the Fact of Birth of MARIO LUIGI DELUCCHI has been filed in this Court and that Thursday, the 28th day of August, 1924 at ten o'clock A. M. of said day at the Courtroom of the above entitled Court at the Court house, in the City of Redwood City, County of San Mateo, State of California, has been set for the hearing of said petition when and where any person interested may appear and contest the same and show cause, if any they have, why said petition should not be granted.

DATED: THIS 13th DAY OF AUG., 1924.
ELIZABETH M. KNEESE,
(SEAL) Clerk.
By G. R. PORTER, Deputy Clerk.
SYLVESTER ANDRIANO and WILLIAM R. LOWERY, Attorneys for Petitioner.

NOTICE OF SALE OF REAL PROPERTY

In the Superior Court of the State of California, in and for the County of San Mateo.

No. 3113

In the Matter of the Guardianship of the Persons and Estates of CORNELIUS P. CULLEN, MILDRED F. CULLEN and EDWARD J. CULLEN, Minors.

Notice is hereby given that in accordance with law the undersigned guardian of the persons and estates of Cornelius P. Cullen, Mildred F. Cullen and Edward J. Cullen, minors, will on or after the 2nd day of September, 1924, offer for sale and sell at private sale, as a whole or in subdivisions, as such guardian shall judge most beneficial to said minors and their estates, to the highest bidder or bidders, for cash in gold coin of the United States, and subject to confirmation by said Superior Court, all of the right, title, interest and estate of said Cornelius P. Cullen, Mildred F. Cullen and Edward J. Cullen, minors, and their estates, in and to all the following described real property, to-wit:

An undivided one-fourth (¼) of and interest in all that certain lot, piece or parcel of land situate in the county of San Mateo, State of California, and described as follows, to-wit:

Lot number Five (5) in Block number Twenty-four (24) as designated and delineated upon Map of San Carlos, San Mateo Co., Cal., which said map was filed in the office of the Recorder of the County of San Mateo, State of California, September 4, 1888, in Book "B" of Maps at page 19, to which said map and the record thereof reference is hereby made and the same made a part hereof.

MANNER, TERMS AND CONDITION OF SALE: Bids or offers will be received for said real property as a whole, or for any subdivision thereof, each bid or offer therefor to particularly describe the subdivision or portion bid for; bids or offers may be made at any time after the first publication of this notice and before themaking of the sale; all bids and offers will be in writing and may be delivered to the guardian or left for her at the law office of Messrs. Ross & Ross, First National Bank Bldg., Redwood City, California, or may be filed in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, at Redwood City, California; the right is reserved to reject the whole or any part of any bid, and to accept it as to any part or subdivision bid for; sales will be made for cash in lawful money of the United States; ten per cent (10%) of the amount of any bid to be paid to the guardian on notice of the acceptance of bid, and the balance of the said sum to be paid to her upon the confirmation of sale by said Superior Court, and delivery or tender of deed, instrument of sale to be at the expense of the purchaser.

Dated: August 14th, 1924.

MARGARET V. CULLEN
Guardian of the persons and estates of Cornelius P. Cullen, Mildred F. Cullen and Edward J. Cullen, minors.
ROSS & ROSS, Attorneys for Guardian.

First publication in Times-Gazette, August 16th, 1924; last publication, August 30, 1924.

COME

Let's All Vote Together

ELECT

Elzo L. Van Dellen

Republican Candidate (only) for Member of

CONGRESS

Eighth District

These Are The Policies Upon Which Mr. Van Dellen Seeks Election

1. **EDUCATION:** The educational interests of American children are of national concern. While no undue burdens must be forced upon the government, we should not economize at the expense of future generations. The problem of education is of such scope that problems of illiteracy, Americanization and the combating of ignorance need the active aid and encouragement of our national government for their proper solution. Popular education and our common schools should have the active support of the national government.

2. **LAW ENFORCEMENT:** The enforcement of the law should be free from any political ffavoritism and corruption and should be placed under a merit system. It is the duty of those who serve the government in official positions to foster respect for the constitution and law and order by personal compliance with the provisions of law. Rich and poor, those under authority and those in authority alike, should be obedient to constituted authority as expressed in our laws.

3. **RELIEF FOR THE FARMER AND FRUIT GROWER:** The farming population is at the present time placed in a very uncertain position. The raising and marketing of crops is on a less secure basis than that of almost any other business venture. The farmer must be assured of a stable national market and of equality of credit facilities on a par with other lines of business. The representative of the people in Congress should study the needs of his district and should be at the service of all of his constituents.

4. **SPECIAL INTEREST CONTROL:** No special interests should occupy the time and attention of the Congressman to the exclusion of other legitimate interests.

5. **HUMAN WELFARE LEGISLATION:** Human welfare legislation is essential to the life, liberty, and happiness of the American people. Congress is to be commended for passing an anti-child labor amendment to the constitution. When ratified by the states, this amendment should be backed up by effective legislation. Social justice demands that approval be given to any legislation which raises the standard of the American home and which will bring about equality of legal and industrial conditions.

6. **REPUBLICAN PARTY RESPONSIBILITY:** The Republican party should be held to responsibility. Party dissensions which have no basis in real facts should be discouraged. Republican Congressmen should carry out the will of the members of the party on the broad, constructive, national issues for which leadership is assumed by the President of the United States.

7. **PERSONAL PLEDGE:** No man can at the same time be a Republican and a Democrat, and I am, therefore, coming before the Republican voters of the 8th Congressional District as an out and out Republican. If elected, I shall endeavor as a good American citizen, to exert my efforts for govrnmental efficiency, for the promotion of the best interest of all the people, and for the realization of American ideals in our national life.

Primary Election Tuesday, August 26

NEWS OF MENLO PARK

Almost any evening flocks of wild ducks may be seen flying from the marsh land to the Bear Gulch lake. According to the predictions of all old settlers this is a sure sign of an early winter. In the early days the early flight of wild ducks was taken as a sure indication of an early winter by the Indians who at once began to gather acorns and dry fish for the rainy days.

Mr. McCoy, the butcher, has sold his building on the highway to a San Francisco business man who is to start an enterprise at once. The property is to be improved.

Matthew McElroy, brother of Mrs. Slinger, left last week for his home in Chicago, after spending two months here. He was delighted with the place, and goes home to the Windy City a big booster for Menlo Park.

Santa Clara University opened last Monday with a large enrollment. Fifteen young men matriculated from Menlo Park for a full course in the various departments of the university. Several students from here will graduate next summer.

The State Highway Commission has refused the request of the people of Menlo Park to compel the telephone company and the P. G. and E. Company to reroute the poles in town or to place them underground. The commission says that inside three years all the poles along the highway will be put underground. Already the utility companies are moving their poles back from the street to the center of the eight-foot sidewalks which leaves but little room for the pedestrains to pass. The only remedy the property owners have left is to secure an injunction to prvent the removal of the poles from their present position.

Plans for a Christmas box for home missions were made at the last meeting of the Menlo Park Presbyterian iMssionary Society.

Mrs. Margaret Hand. Mrs. Mary Hand and Miss Margaret Hand have gone to Capitola for a vacation of two weeks.

A rummage and food sale will be held Friday afternoon and Saturday, August 29 and 30 at the old post o ce by the Menlo Park Branch of the National Council of Catholic Women, for the benefit of the Church of the Nativity. Donations for the sale will be appreciated.

Miss Ann Murray, a native of New York, aged 81 years, passed away at her home here last Saturday, following a long illness. She resided here with her sister, who is very low and not expected to live, and who was one year older. Both sisters were fondly attached to each other; both hoping that they would solve the mysteries of death together. They came here with their brother John, now deceased, from Arizona, and bought the old Ryan place oposite the Felton estate. After the death of their brother, the sisters moved to Gilroy, returning here after the death of their sister-in-law, Mrs. Charles Murray, to keep house for their brother. The funeral took place from the Church of the Nativity Tuesday morning. Interment was in Holy Cross cemetery. Miss Murray is survived by two sisters, Alice and Margaret Murray and a brother, Charles, all residents of Menlo Park, and a nephew, Charles Murray of Taft.

Colonel Leslie, in charge of the base hospital for the past two years, has departed for Michigan to take over a government hospital there. The colonel was very popular at the hospital, being liked and loved both by the inmates and the empoyes. He has been succeeded by Dr. P. G. Borden, who has been the admiating officer at the institution for some time. The doctor is very well spoken of by the inmates.

Both the local candidates for supervisor have canvassed the district thoroughly seeing nearly all of the voters, and hope to bring out a record vote next Tuesday. John McBain, who has held the position for the past twelve years, has given the Third township splendid roads. He is considered the father of the good road system of the county, having made a study of the highways. Mr. MacBain has a clean record and will go before the electorate on that record, hoping to win at the primary election on Tuesday. His numerous friends are rallying to his support with genuine enthusiasm that savors of success. Harry G. Walsh has made a complete canvass of the voters, soliciting their support on his war record and qualifications for the office to which he aspires. He promises many reforms if elected.

J. J. Murray has returned from a two week's sojourn at Gilroy Hot Springs, where he met many former San Mateo county people.

An old fashioned dance will be given under the auspices of St. Joseph Alumni Association in Native Sons hall one next Tuesday evening. New novelties in the way of fancy dancing will be introduced during the evening. This will be election evening, so that many politicians will attend, while waiting for the returns.

Mrs. M. H. Walsh is recovering from several burns on her head and shoulders caused by boiling water dropping on her from a kettle as she slipped and fell in her kitchen. Two physicians are attending her, and for a while her family was much alaramed.

The christening in San Francisco Sunday of James Bernard Burke, Jr., grandson of Mrs. Bernard Burke of Menlo Park, was the occasion for a party at which many guests were present.

Mr. and Mrs. J. P. Ahert and children left this week for a visit in Monterey.

A. W. Gale left this week for Kelly Hill, Butte county, after a visit of six months here.

ooo

CARD OF THANKS

We wish to thank those who were so kind to us in our recent bereavement, and to express our appreciation to those who sent the many floral offerings.

MRS. G. BROGGI AND FAMILY.
Menlo Park

The Menlo Park Improvment Association is planning to give a dance in Duff and Doyle hall on Saturday evening, September 6. Some new features in dancing are to be introduced. During the termission the dancers will be galed by singing. General admission $1. Make no other dates that evening.
